**Portions of a letter from the Attorney for the Town of Center Harbor written in conclusion of the recent court stipulation on land development.**

The Town of Center Harbor already has an ordinance regulating the use of private sewers and drains and private sewage disposal, and under this ordinance no septic tank can be installed without the permission of the Selectmen.

It is my recommendation that several signs be put up in the town of Center Harbor, stating at follows: "NOTICE — BEFORE COMMENCEMENT OF CONSTRUCTION OF A PRIVATE SEWAGE DISPOSAL SYSTEM (SEPTIC TANK AND LEACHING FIELD) THE OWNER MUST FIRST OBTAIN A WRITTEN PERMIT SIGNED BY THE SELECTMEN."

I also strongly recommend that there be sent to every person who owns a development, on which there will be building carried on in Center Harbor, a copy of the health ordinance with a short note explaining that this health ordinance will be enforced by the Selectmen and that if the person to whom it is sent desires any information he should call at the Selectmen's office.

I think it is also important that the health officer of the Town be a person who is willing to enforce the health ordinance and be as severe as possible.

I think it is important also to point out at this time that while the stipulation was arrived at in this particular case does solve the water pollution problem as far as this particular area on Squam Lake is concerned, the problem of cheap and unattractive and potentially polluted subdivisions, still remains, both as far as Squam Lake and Lake Winnepesaukee are concerned. It is my opinion that the only way to insure the orderly growth of lakeside property is to have the Town adopt a comprehensive plan and subdivision regulations. These subdivision regulations would not only eliminate the danger of pollution, but could also insure an orderly development with the proper types of roads and the correct size of lots. Experience in New Hampshire has shown that more and more "quick buck" developers are moving up here and that more and more people are buying into such developments. This means that if roads are not laid out properly there will be extra expense to the Town as the years go by, and a development that is embarked upon without any real planning will result in a fire hazard and eventually depress property values in the surrounding areas.

I know from experience that we have one of the finest planning departments in the country. I am sure that Mr. Randy Raymond and Mary Louise Hancock, of the New Hampshire Planning Department, would be more than happy to assist the Town of Center Harbor in working out a comprehensive plan, which will make Center Harbor the attractive summer and winter resort that it should be.

The preservation of the purity and beauty of Center Harbor and the Squam Lakes Region is a task that the people of Center Harbor, and particularly its Selectmen, should be concerned with at all times. Due to improved roads, better cars, and an affluent society, more and more people from the cities and suburban areas of Boston, New York, and other large population centers will be pushing into New Hampshire, first to live here in the summer, and then eventually to live here the year round. None of the towns on Squam Lake is immune to the population explosion of an affluent society.

Unfortunately, the record of the American people from the Atlantic Ocean to the Pacific Coast shows that we have been wanton despoilers of what nature has given to us, not because of evil intent, but because of carelessness, negligence, and lack of planning. If the waters of Squam Lake become polluted, Squam Lake will become another Pemigewasset River, and Center Harbor and the other Towns that depend upon it as a tourist attraction will shrivel and become ghost towns. Only the People of Center Harbor and the other Towns can make sure that our children will be able to fish and swim and enjoy the clear pure waters of Squam Lake.

It has been a pleasure to have been of service to you.

Yours truly,

Hugh H. Bownes

## **Report of Forest Fire Warden and District Chief**

Fire records are made by people — those who cause fires and those who control them. Your forest fire warden, deputy wardens, fire chief and firemen have, in spite of a prolonged drought, made one of the best fire control records in recent years. Despite a very dry spring, we in New Hampshire working together, have substantially reduced our fire incidence (855 in 1965 to 595 in 1966.)

This enviable record is largely due to two factors:

1. A closely coordinated and integrated state-town organization jointly carrying out programs of forest fire prevention, training and suppression with dedicated personnel.
2. Your appreciation of our forest fire control program and your individual effort in practicing fire prevention.

Statistics show, however, there is room for improvement. Major problems are still with us; (1) the careless disposal of cigarettes; (2) the householder's carelessness in burning rubbish; (3) the failure of woodlot owners and contractors to completely extinguish brush fires; (4) failure to extinguish camp fires; (5) unsupervised children playing with matches.

New Hampshire has 4,399,000 acres of woodland to be protected. In 1966 we experienced 595 forest fires on this area and restricted acreage burned to 395 acres — a fine testimonial to the efficiency and dedication of the men who make up our forest fire control organization.

1. If you must burn you will need a permit. Permits are not issued between 9:00 A.M. and 5:00 P.M. except on rainy days. Permits are not needed when the ground is covered with snow. To minimize risk the best way to dispose of rubbish is at your authorized town or municipal dumping area.
2. Be sure all discarded smoking material is out.
3. Don't leave a live camp or cooking fire.
4. Most important - Instruct your children that matches are not play things.

**Truly — Only You Can Prevent Forest Fires**

108 Permits Issued

1 Fire of  $\frac{1}{4}$  Acre

Herbert E. Martin  
Warden
